

Hosted Training Summary

The Society of Critical Care Medicine (SCCM) requests a summary to gather information about the hosted course you recently held. Please provide a detailed response to each item below.

- What was the course date and location?
- Please provide information about the institution or region in which the course was held and how the course provided value to the local community.
- Please send photos, testimonials, and media related to the course.
- Which clinician professions participated in the course (e.g., physicians, nurses, technicians) and what patient population(s) was served?
- Were any of the learners from an area other than that in which the course was held?
- What was the impact of the course on the clinicians who participated?
- How did the course better prepare participants to deal with critical care situations?
- Can you share any clinician or patient impact stories?
- Would you be interested in hosting additional courses if funding becomes available?
