

AHRQ Safety Program for ICUs: Preventing CLABSI and CAUTI

A quality improvement program funded and guided by AHRQ and led by the Health Research & Educational Trust

Adult ICUs with CLABSI and/or CAUTI rates that may need improvement (*i.e.*, [positive Cumulative Attributable Difference in the Targeted Assessment for Prevention report](#)) are eligible to participate. The program will begin recruitment efforts in Fall 2019 for a new cohort!

Key Dates

Length of Participation:
12 Months

Recruitment Begins:
Fall 2019

Cohort Launch:
Early 2020

Benefits of Participation

Work to achieve U.S. Department of Health and Human Services 2020 **CLABSI and CAUTI reduction goals**.

Gain experience implementing the Comprehensive Unit-based Safety Program (**CUSP**) model to create a culture of safety.

Get access to subject matter experts, coaches, benchmark reports, and educational materials to **improve performance**. Network with other ICUs nationally to **share best practices** and address gaps in performance.
